

JOURNAL OF ENVIRONMENTAL ECONOMICS AND MANAGEMENT

<http://www.elsevier.com/locate/jeem>

INFORMATION FOR AUTHORS

*The Journal of Environmental Economics and Management* publishes theoretical and empirical papers devoted to specific natural resources and environmental issues. For consideration, papers should (1) contain a substantial element embodying the linkage between economic systems and environmental and natural resources systems or (2) be of substantial importance in understanding the management and/or social control of the economy in its relations with the natural environment. Although the general orientation of the journal is toward economics, interdisciplinary papers by researchers in other fields of interest to resource and environmental economists will be welcomed. The journal is intended to be of interest not only to research economists but also to the scientific community concerned with resource and environmental management research.

**JEEM Policy Concerning Replication.** For any paper published in this journal, all data used must be clearly documented. Computational methods must be explained in sufficient detail to permit replication, and data used in analysis must be made available to any researcher for purposes of replication. The Editor must be notified at the time that a paper is submitted to the journal, if these conditions cannot be met.

*Submission of Manuscripts.* All manuscripts should be submitted to: **Charles F. Mason, Journal of Environmental Economics and Management, Department of Economics & Finance, University of Wyoming, 1000 E University Ave, Laramie, WY 82071-3985.** Except under unusual circumstances authors should submit their paper, via e-mail to [JEEM@uwyo.edu](mailto:JEEM@uwyo.edu). The submission package should include a PDF version of their manuscript, along with a text file containing title, list of authors, abstract and list of keywords. When creating the PDF file, be sure that all fonts are embedded into the PDF file. A single hard copy of the paper, along with a cover letter, should be sent *at the same time* to the above address through the regular postal or an express service. The submission fee can be paid by check, which should then be included with the hard copy and cover letter, or by VISA or MasterCard using the secure on-line site:

[https://commerce.cashnet.com/uw\\_jeem](https://commerce.cashnet.com/uw_jeem).

Checks should be in U.S. dollars drawn on U.S. banks only (no Eurocheques, please), and should be made payable to JEEM – UW. The Association has established a submission fee of \$80.00 for non-AERE members and \$40.00 for AERE members. Under exceptional circumstances, the journal may accept a hard-copy submission. Please contact the editor (either at the postal address above, or via e-mail) and explain why such an approach is necessary *prior to* sending in the paper.

Manuscripts submitted to JEEM must be written in English and double-spaced throughout. Margins must be at least one inch on all sides and fonts should be no smaller than 12-point. The title and abstract page, described below, must be included. Papers not meeting these minimal formatting guidelines will be returned to the authors without review. The typical submission to the journal is on the order of 30 to 35 pages in length (including everything but the title and abstract pages). JEEM will not normally consider for publication manuscripts exceeding forty pages.

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be nor is presently submitted elsewhere, and that its submission for publication has been approved by all of the authors and by the institution

where the work was carried out; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in the *Journal of Environmental Economics and Management* represent the opinions of the author(s) and should not be construed to reflect the opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if the manuscript is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Copyright Transfer Agreement, which may be copied from the journal home page listed here, should be signed by the appropriate person and should accompany the original submission of a manuscript to this journal. The transfer of copyright does not take place until the manuscript is accepted for publication.

Authors are responsible for obtaining permissions to reprint previously published figures, tables, and other material. Letters of permission should accompany the final submission.

*Electronic Transmission of Accepted Manuscripts.* Authors are requested to transmit the text and art of the manuscript in electronic form, via either computer disk, e-mail, or FTP, after all revisions have been incorporated and the manuscript has been accepted for publication. Submission as an e-mail attachment is acceptable provided that all files are included in a single archive the size of which does not exceed 2 megabytes (jeem@elsevier.com). Manuscripts prepared using TeX or LaTeX are welcome; however, LaTeX(2e) is strongly preferred. Note that the use of other specialized versions of TeX or extensive use of custom macros may necessitate conventional typesetting from the hard-copy manuscript. Hard-copy printouts of the manuscript and art must also be supplied. The manuscript will be edited according to the style of the journal, and authors must read the proofs carefully. Complete instructions for electronic transmission can be found on the journal home page (<http://www.elsevier.com/locate/jeem>).

*Preparation of Manuscript.* Manuscripts should be double-spaced throughout on one side of 8.5 × 11-inch or A4 white paper. Pages should be numbered consecutively and organized as follows:

The *Title Page* (p. 1) should contain the article title, authors' name and complete affiliations, footnotes to the title, a running title of less than 50 characters, and the address for manuscript correspondence (including e-mail address and telephone and fax numbers).

The *Abstract Page* (p. 2) must contain the article title and a single paragraph abstract summarizing the main findings of the paper in less than 150 words. After the abstract a list of up to 10 key words that will be useful for indexing or searching should be included.

*References* should be cited in the text by Arabic numerals in brackets, e.g., [1], [2], etc. For abbreviations of journal titles, consult "Abbreviations of Names of Serials" reviewed in *Mathematical Reviews (Mathematical Reviews Annual Index, American Mathematical Society, 1990)*. Only articles that have been published or are in press should be included in the references. Unpublished results or personal communications should be cited as such in the text.

1. J. K. Stranlund and K. K. Dhanda, Endogenous monitoring and enforcement of a transferable emissions permit system, *J. Environ. Econom. Management* **38**, 267-282 (1999).
2. A. Ulph, Harmonization and optimal environmental policy in a federal system with asymmetric information, *J. Environ. Econom. Management*, doi:10.1066/jeem.1999.1098.
3. G. Peterson and T. Mueller, Regional impact of federal tax and spending policies, in "Alternatives to Confrontation" (E. Arnold, Ed.), Heath, Lexington, MA (1980).

*Figures* should be in a finished form suitable for publication. Number figures consecutively with

Arabic numeral, and indicate the top and the authors on the back of each figure. Lettering on drawings should be professional quality or generated by high-resolution computer graphics and must be large enough to withstand appropriate reduction for publication. *Color Figures.* Illustrations in color can be accepted only if the authors defray the cost.

*Tables* should be numbered consecutively with Roman numerals in order of appearance in the text. Type each table double-spaced on a separate page with a short descriptive title typed directly above and with essential footnotes below. Authors should submit complex tables as camera-ready copy.

*Proofs* will be sent to the corresponding author. To avoid delay in publication, only necessary changes should be made, and proofs should be returned promptly. Authors will be charged for alterations that exceed 10% of the total cost of composition.
