<sup>a/</sup> Total population April 1 for U.S. and January 1, for Iowa, except data since 1971 for July 1.

<sup>b/</sup> Total population now for July 1 for U.S.

<sup>c/</sup> Preliminary Data

<sup>d/</sup> Based on prices of a fixed market basket of goods and services considered representative of total purchases of urban consumers. The index is a measure of the price change since the 1982-84 base period. Thus, the average level of prices in 1988 was estimated to be 18.3 percent higher than the 1982-1984 average; food prices alone in 1988 were estimated to be 18.2 percent higher than the 1982-1984 average.
