

Table 9. Soybean Production, Utilization and Carryover

Measured in (millions of bushels)

Marketing Year Begins Sept. 1 ^{a/}	Production	Utilization		Ending Carryover Sept. 1
		Domestic ^{a/}	Export	
1965	846	589	251	36
1966	928	612	262	90
1967	976	633	267	166
1968	1,107	659	287	327
1969	1,131	795	433	230
1970	1,127	824	434	99
1971	1,176	786	417	72
1972	1,201	804	479	60
1973	1,548	898	539	171
1974	1,216	778	421	188
1975	1,548	936	555	245
1976	1,289	867	564	103
1977	1,767	1,009	700	161
1978	1,869	1,115	739	176
1979	2,261	1,204	875	358
1980	1,798	1,119	724	313
1981	1,989	1,119	929	254
1982	2,190	1,194	905	345
1983	1,636	1,062	743	176
1984	1,861	1,123	598	316
1985	2,099	1,139	740	536
1986	1,940	1,283	757	436
1987	1,938	1,270	802	302
1988	1,549	1,146	527	125
1989	1,924	1,247	623	239
1990	1,926	1,282	557	329
1991	1,987	1,357	684	278
1992	2,190	1,406	770	292
1993	1,871	1,372	589	209
1994	2,517	1,568	838	335
1995	2,177	1,481	851	183
1996	2,383	1,562	882	135
1997	2,689	1,637	870	200
1998	2,741	1,791	805	348
1999	2,654	1,742	975	290
2000	2,758	1,804	1,000	248
2001	2,891	1,886	1,045	210
2002	2,860	1,889	955	230
2003	2,418	1,607	890	105
2004	3,150	1,798	1,097	256
2005	3,063	1,882	940	449
2006	3,188	1,954	1,118	574
2007	2,677	1,803	1,161	205
2008	2,959	1,640	1,185	185
2009	3,245	1,680	1,280	220

^{a/} Includes residual quantities (usually small) unaccounted for but apparently represented by handling losses and statistical errors.

^{b/} Agriculture Outlook is no longer published as of December 2002. AmberWaves replaced it.
