---

<sup>a</sup>May be waived for students who have Economics as a secondary major along with a primary major outside of the Liberal Arts and Sciences college.

<sup>b</sup>Students must also maintain a C average in Econ 101, 102, 301, and 302 as well as a C average in all Econ courses taken.

<sup>c</sup>Students who plan to pursue post-graduate work in economics or who want a more quantitative program should take the Math 165, 166 sequence.

<sup>d</sup>Students must take a sufficient number of elective credits to reach the minimum number of 120 total credits and the minimum number of 45 graded credits of 300+ level courses required to graduate from the Liberal Arts and Sciences College (with no more than 9 credits of 490, Independent Study, in a single discipline).
