

PICTURE A **SCIENTIST**

PICTURE A SCIENTIST is a feature-length documentary film chronicling the groundswell of researchers who are writing a new chapter for women scientists. A biologist, a chemist and a geologist lead viewers on a journey deep into their own experiences in the sciences, overcoming brutal harassment, institutional discrimination, and years of subtle slights to revolutionize the culture of science. From cramped laboratories to spectacular field stations, we also encounter scientific luminaries who provide new perspectives on how to make science itself more diverse, equitable, and open to all.

Join us Thursday, October 1, 2020

6:00 p.m. CDT - Welcome

6:10 p.m. CDT - Screening of the film (97 minutes)

8:00 p.m. CDT - Panel discussion with members of the NSF ADVANCE partnership

RSVP: <https://cutt.ly/pictureascientist>

Meet the scientists:

Jane Willenbring, a geologist at the Scripps Institution of Oceanography, shares her experiences with gender bias and sexual harassment.

MIT biologist **Nancy Hopkins**, discusses her movement for change for women within academia.

Raychelle Burks, a chemist at American University, addresses gender bias and racial discrimination.
