Business Economics

2015-2016 Catalog

(Cooperative Major between the College of Business and the Department of Economics)

The objective of the Business Economics major is to provide a high quality education with a balanced emphasis in both business and economics. Such an education should equip graduates with a unique set of skills distinguishing them from other graduates. In particular, they will have the ability to use both business and economic reasoning to think critically and address complex issues using tools and decision making models of economics, business, mathematics, statistics, as well as concepts from the biological, physical, and social sciences; to make decisions and to communicate effectively.
