

### Business Options for Agricultural Business Majors

Agricultural Business majors can pursue **one** of three Business Options: Marketing, Finance, or Supply Chain Management. Completion of a Business Option will be noted on a student's degree audit, but not their transcript. A student must request permission to add a Business Option by completing the **Business Option Request** available on the department website. To be eligible for a Business Option, a student must have completed the **Foundation Courses AND have a 2.5 minimum cumulative GPA**. Prerequisites for all courses taught by the College of Business are enforced. Nine (9) credits must stand alone in the Business option section.
